

# MUHAMMAD HUZAIF

Karachi, Sindh/ Pakistan | +923122427270 | mhuzair523@gmail.com

## Objective

---

Motivated and growth-oriented professional with a strong passion for technology and continuous learning. Adept at quickly adapting to new tools, frameworks, and challenges with a curious and problem-solving mindset. Eager to explore innovative solutions and contribute to impactful projects in fast-paced environments

**TECHNICAL SKILLS:** JavaScript, TypeScript, React, NestJS, Tailwind, PostgreSQL, Docker, Git, GitHub, GitHub Actions, Ansible, Terraform, AWS

## PROFESSIONAL EXPERIENCE

---

**Innova360**

Karachi, Sindh / Pakistan

*Full Stack Developer*

2025 (JULY) - Current

- Developed complete end-to-end modules, including both backend and frontend.
- Built and maintained CI/CD pipelines for staging and production, ensuring stable and reliable deployments.
- Worked on multi-tenant architecture with isolated tenant data and scalable design.
- Implemented a robust Role-Based Access Control (RBAC) system with role-driven permissions.
- Integrated AWS S3 Bucket APIs for file storage and retrieval.
- Deployed frontend applications from EC2 to AWS Amplify with automated build and deployment pipelines.

**Smartsphere (Internship)**

Karachi,

Sindh / Pakistan

*Full Stack Developer*

2024 (FEBRUARY) - 2024 (APRIL)

I build robust backend APIs using Fastify, used MongoDB for database, and developed dynamic, user-friendly dashboards in React. Also deployed both frontend and backend on AWS using EC2

- Built RESTful APIs using Fastify and Frontend with React
- Designed and developed dynamic admin dashboards in React for real-time data visualization.
- Deployed backend services on cloud servers (e.g., AWS EC2) with Nginx configuration and domain setup.
- Also used Route 53 for custom domain management

## EDUCATION & OTHER

---

**UNIVERSITY OF KARACHI**

2022-2025

(Software Engineering)

## CERTIFICATIONS

---

**MERN STACK DEVELOPER**
